

## Turning off Secure Browsing for Facebook to be able to view from AFNET Domain.

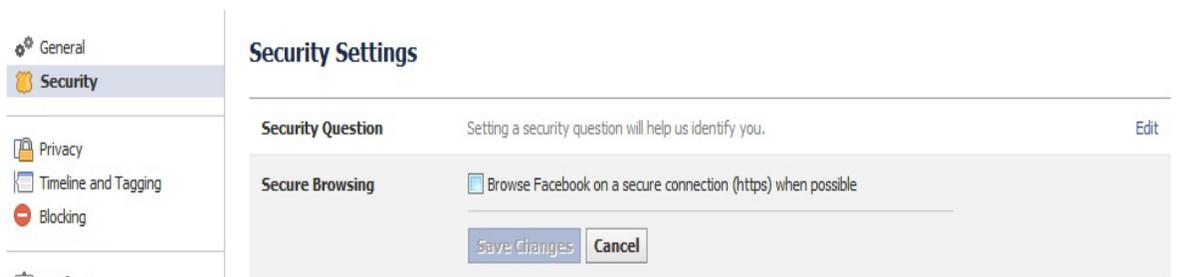

1. First Step click on the settings link after you log in on your home computer.

2. Then click security settings.

3. Click edit, next to Secure Browsing, uncheck the box next to Browse Facebook on a secure connection (HTTPS) when possible.

4. Then click save changes and log out.
5. Once you go back to Facebook on your AF Network computer it will look the same as it did before, until you log back in to your Facebook account.
